

Follow-up After Emergency Department Visit for Mental Illness (FUM)

- **Description:** The percentage of emergency department (ED) visits among members 6 years of age and older with a principal diagnosis of mental illness or intentional self-harm, who had a follow-up visit with any practitioner with a principal diagnosis of a mental health disorder.
- Two rates reported: Follow up within 30 days and follow up within 7 days.
- Exclude discharges followed by readmission or direct transfer to a nonacute inpatient care setting within the 30-day follow-up period

KEYS TO SUCCESS:

- **Refer patients to behavioral health by providing direct referral through Aerial Care or Health Plan**
- **Schedule patients within 7 days from an ED visit. Patient need to be seen within 30 days.**
- **Utilize telehealth when appropriate**
